

Christmas Tree Decoration

We would like to invite each child to design a special star to decorate our School Christmas Tree in the main reception area again this year.

We have provided a template below for the front and the back of the star, which will need to be cut out. The front of each star can be decorated in any way and the back of the star is for a Christmas Wish - we would encourage pupils to frame their wish in the context of our school and Christian values, considering others at this special time. Please also provide a ribbon or tab so that the children can hang their stars on the tree themselves when they bring them into school.

If we could ask that all decorated stars be brought into school as soon as possible please, we look forward to seeing our beautifully decorated Christmas tree.
